SUMMARY

Data and BI analyst with an accounting background who builds the reconciliations and reports other teams rely on. Built a Power BI model that cut a monthly reconciliation from 5+ business days to about 3 hours. Uses Power Query, DAX and HR system reporting at work; in personal projects, runs AI agents behind human review gates, with AI-assisted SQL and Python.

TECHNICAL SKILLS

• *Data & BI:* Power BI (DAX, star schema), Power Query, SQL (SQL Server, SSMS), Python (AI-assisted), Excel (XLOOKUP, LET, LAMBDA, PivotTables), R (coursework)
• *AI Operations:* AI prompting and agent workflows (Claude, OpenAI Codex), human-in-the-loop review gates, read-only reviewers, git hooks, decision logs, AI use policy
• *Analysis:* reconciliation, variance analysis, data validation and clean-up, root-cause tracing, automated checks, recurring reporting, SOPs, confidential data handling
• *Systems & Domain:* HR system reporting, ADP, QuickBooks Online; benefits and payroll data, general ledger tie-out, AP and AR, monthly close, U.S. GAAP
• *Credentials:* Microsoft Office Specialist: Excel Associate; DataCamp Intro and Intermediate SQL; QuickBooks Online Certified ProAdvisor (Gold); Lean Six Sigma foundations

WORK EXPERIENCE

AgFirst Farm Credit Bank, *Columbia, SC*
Benefits Coordinator (formerly Benefits Generalist) 11/2024-Present

- Built a Power BI subledger tied to the GL; monthly reconciliation went from 5+ business days to about 3 hours
- Assigned by my manager to train two colleagues on the reconciliation tool, with an SOP I'm writing now
- Reconcile voluntary deductions for thousands of employees each pay period, tracing every variance to the person
- Run dozens of recurring reports a month from the HR system and reconcile them to enrollment and vendor data
- Built an Excel workbook (Power Query, LET, LAMBDA) that matches the carrier's group life file to payroll data
- Built a repeatable Power Query data process for annual 401(k) nondiscrimination testing
- Support year-end external audit requests with documented research

CurieLedger, *West Columbia, SC*
Co-Founder 10/2026-Present

- Lead product for an AI-built records app so radiation safety records hold up to regulators over decades-long licenses
- Direct the AI agents and own requirements, testing and release; 16 releases in 8 days to a private beta
- Wrote the AI use policy, approved by my co-founder: no AI on customer records, human approval before release

SC Department of Mental Health, *Columbia, SC*
Accountant/Fiscal Analyst I 01/2023-09/2024

- Processed and reconciled an average of 800+ invoices a month under GAAP and state fiscal policy, and trained staff to process them
- Reconciled payables and analyzed variances for the monthly close; prepared journal entries and interdepartmental billing

Logistics Operations, *Columbia, SC*
Transportation Operations Specialist (CDL Class A) 01/2015-10/2022

- Ran multistate routes for seven carriers under FMCSA and hours of service rules, tracking fuel and mileage

PROJECTS

- Benefits receivables reconciliation (synthetic data): Power BI, then rebuilt in AI-assisted Python and SQL with 13 automated checks
- AI operations and enablement: AI agents behind four review gates; a decision log of 14 issues caught before release
- FP&A variance and forecast on AdventureWorks (SQL Server, Power BI, DAX); published fixes to my own errors

EDUCATION

Midlands Technical College, West Columbia, SC Graduation 2026

- *AAS in Accounting; Phi Theta Kappa Honor Society (since 2022); Part Time Honor Roll; coursework in Data Science (R)*
